# Justin Martini

**Experienced survey technician ready to take the next step in my career**

My current roles demonstrate my continued efforts to further improve my survey development knowledge, responsibilities and key skills within the surveying profession. Devoted professional with a Bachelor of Applied Science (Land Surveying). Current Honours research: Defining the line - The legal cadastre and Vicmap Property ,

I am a current surveying student who is employed upon a part time basis within the cadastral surveying profession. The continued development of my surveying career is critically important for my future goals, targets and my driving my ambition to become a Licenced Surveyor in Victoria..

## Things I Can Do

Reliable and accountable for a wide scope of surveying duties in the field, drafting of survey plans and providing assistance to the survey party leader during fieldwork.
